Abbotsford Care.

Full of Life.

Family-owned, family-run residential
care homes across Fife, Scotland.

WELCOME

We're not just a group of homes. We're a community.

A community you can call home.

Family run since 1987, Abbotsford Care has been built around one simple idea: growing older doesn't mean life stops being interesting, social or fun. Our care homes are full of stories, friendship, and memories and we'd love you to be part of them.

Whether you're exploring care for the first time or looking for a new home for someone you love, we are here to help with this big decision. We believe it should feel like a positive one, a step towards more life, not less, at exactly the time extra support is needed.

"The care at Abbotsford feels like family"

RESIDENT'S DAUGHTER
RAITH MANOR, KIRKCALDY

Life doesn't stop at Abbotsford.

Our team's first job is simple: to make every resident feel safe, secure, happy and content within a family environment through genuinely great care. We make sure all our residents are respected, listened to, and supported in the way they need it.

Our homes are warm, welcoming places, where each resident is encouraged to live life in their own way, with memorable activities and a broad variety of social events always on offer.

This is a world away from the isolation many older people can feel living alone. Instead, there's bustle, friendship and camaraderie, every day.
