WELCOME TO HEADWELL HOUSE

Headwell House is a purpose-built care home in the heart of Dunfermline, with spacious, high-quality accommodation across two floors. Its four welcoming wings are home to 44 older people. Every bedroom has generous living space and an ensuite wet room, and residents can personalise it with their own furnishings. Headwell also has two specialist units for younger adults, each with six bedrooms and its own sitting and dining room. Life here is about staying active, connected and involved. Families and friends are always welcome to join in the social activities, and the activities and library room is a space for games and hobbies.

Thanks to the staff, I never feel alone at Headwell House
