WELCOME TO STRATHBURN LODGE

Abbotsford Strathburn Lodge is a purpose-built care home that has been supporting residents since 1993. The home is made up of four smaller, welcoming units, each accommodating 10 residents, creating a more homely and personal environment. At Strathburn Lodge, residents are supported to live life in their own way, with choice and individuality at the heart of everyday life. Residents are actively involved in decisions about the home and enjoy a range of meaningful activities, from caring for the growing herbs, vegetables and flowers to creating beautiful flower baskets for the home and local community.

The staff work to maximise what Mum can do so she enjoys life
